UC2 Products page

UC2.1 Products page Header

	<div>1. Products page has Header, Body (with content) and Footer</div> <div>2. Logo is situated in the Header, some left to the center (see mock-up)</div> <div>3. Logo should be clickable and send to the Homepage:<div>- the whole Logo area is clickable</div></div> <div>4. Logo height should be the same as Header</div> <div>5. Right to the logo is Menu icon ≡</div> <div>6. Menu should work as on Homepage</div> <div>7. Header has the same icons and options as on Homepage</div> <div>8. Header has green background colour and stretches to the screen width with any screen resolution</div> <div>9. All Header content should be aligned by vertical border due to other page parts</div>
---	---

UC2.2 Products page Body (Content block)

	<div>1. Products section is shown under Header and right to the Filter Panel</div> <div>2. Products section title should be "ПРОДУКЦИЯ"</div> <div>3. Products section has filtering buttons under its title:<div>- "ПОКАЗАТЬ ВСЕ", "ДИЕТИЧЕСКИЕ ДОБАВКИ", "КОСМЕТИЧЕСКИЕ СРЕДСТВА", "УХОД ЗА ПОЛОСТЬЮ РТА"</div><div>- these buttons are aligned in line</div></div> <div>4. Default active button is "ПОКАЗАТЬ ВСЕ", coloured with orange</div> <div>5. Buttons workflow if clicked:<div>- "ПОКАЗАТЬ ВСЕ" - shows all items from all categories;</div><div>- "ДИЕТИЧЕСКИЕ ДОБАВКИ" - shows all items from "Dietary Supplements" category only;</div><div>- "КОСМЕТИЧЕСКИЕ СРЕДСТВА" - shows all items from "Cosmetics" category only;</div><div>- "УХОД ЗА ПОЛОСТЬЮ РТА" - shows all items from "Oral Health" category only</div></div> <div>6. All goods should be shown with Tile View:</div>
---	---

- tile should be aligned just under filtering buttons
- tile block width should be the same as filtering buttons above it
- tiles should be shown in four lines (12 tiles in total)

7. Tiles should have:

- image of good;
- good title;
- article (item ID);
- manufacturer info;
- original factory packaging (how many tabs there are inside in pcs);
- item fee;
- buy button with title "В КОРЗИНУ":
 - i. this button adds item to the Cart

8. User can navigate to any product's page by 2 ways:

- clicking on good's image of chosen product;
- clicking on good's name of chosen product

9. There is a Pagination Controls under Tiles:

- 5 controls are shown by default:
 - i. if there is more than 5 pages then "... " is shown after last pagination control

10. Clicking on "... " pagination control sends to the last page

11. Clicking on the any pagination control (numeric) sends to this page and shows numeric pagination controls before current page (if exist) and numeric pagination controls after current page(if exist), total of shown numeric controls should be 5:

- "... " in the start and/or end of pagination are shown (if exist other pages befor/after shown pages)

E. g.: Choose "5". System shows "... 3 4 **5** 6 7 ...".

If user choses "2", system shows "1 **2** 3 4 5 ...".

If there are 15 page and user choses "14", system shows "... 11 12 13 **14** 15".

12. Chosen Pagination Control is shown in green circle (refer to mock-ups)

13. Scroll to top button:

- it is hidden when scroll is on the top in vertical scroll bar;
- it is shown near right page border if page has vertical scroll bar and was just a little scrolled down, when Logo and some of Slogan text are hidden under top browser border

14. Scroll-to-top button is orange circle with white up arrow:

- clicking on this button scrolls page to the top:
 - i. in this case Scroll-to-top button hides

15. Facebook Widget is shown left to the Main section (Body) and under Filtering Panel:

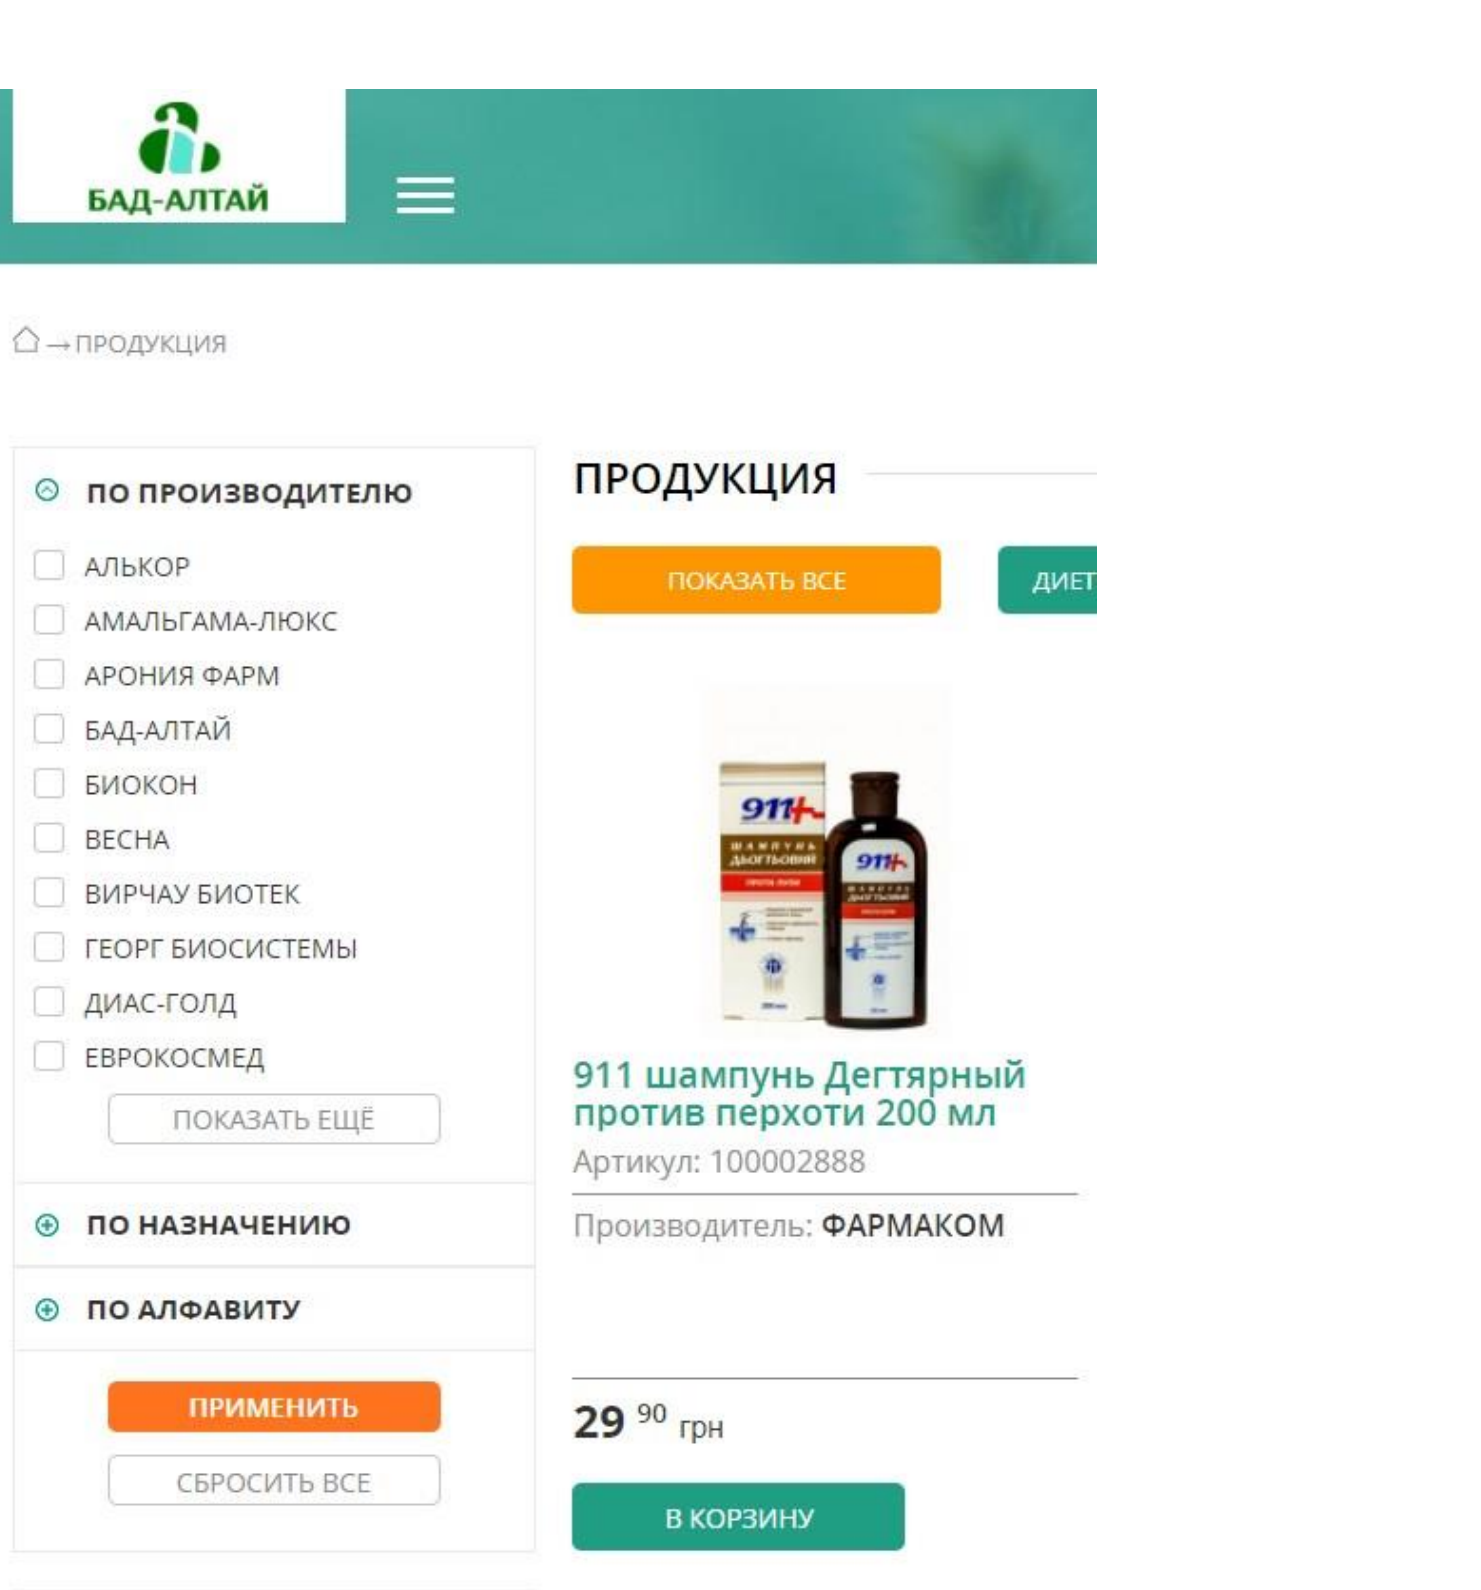

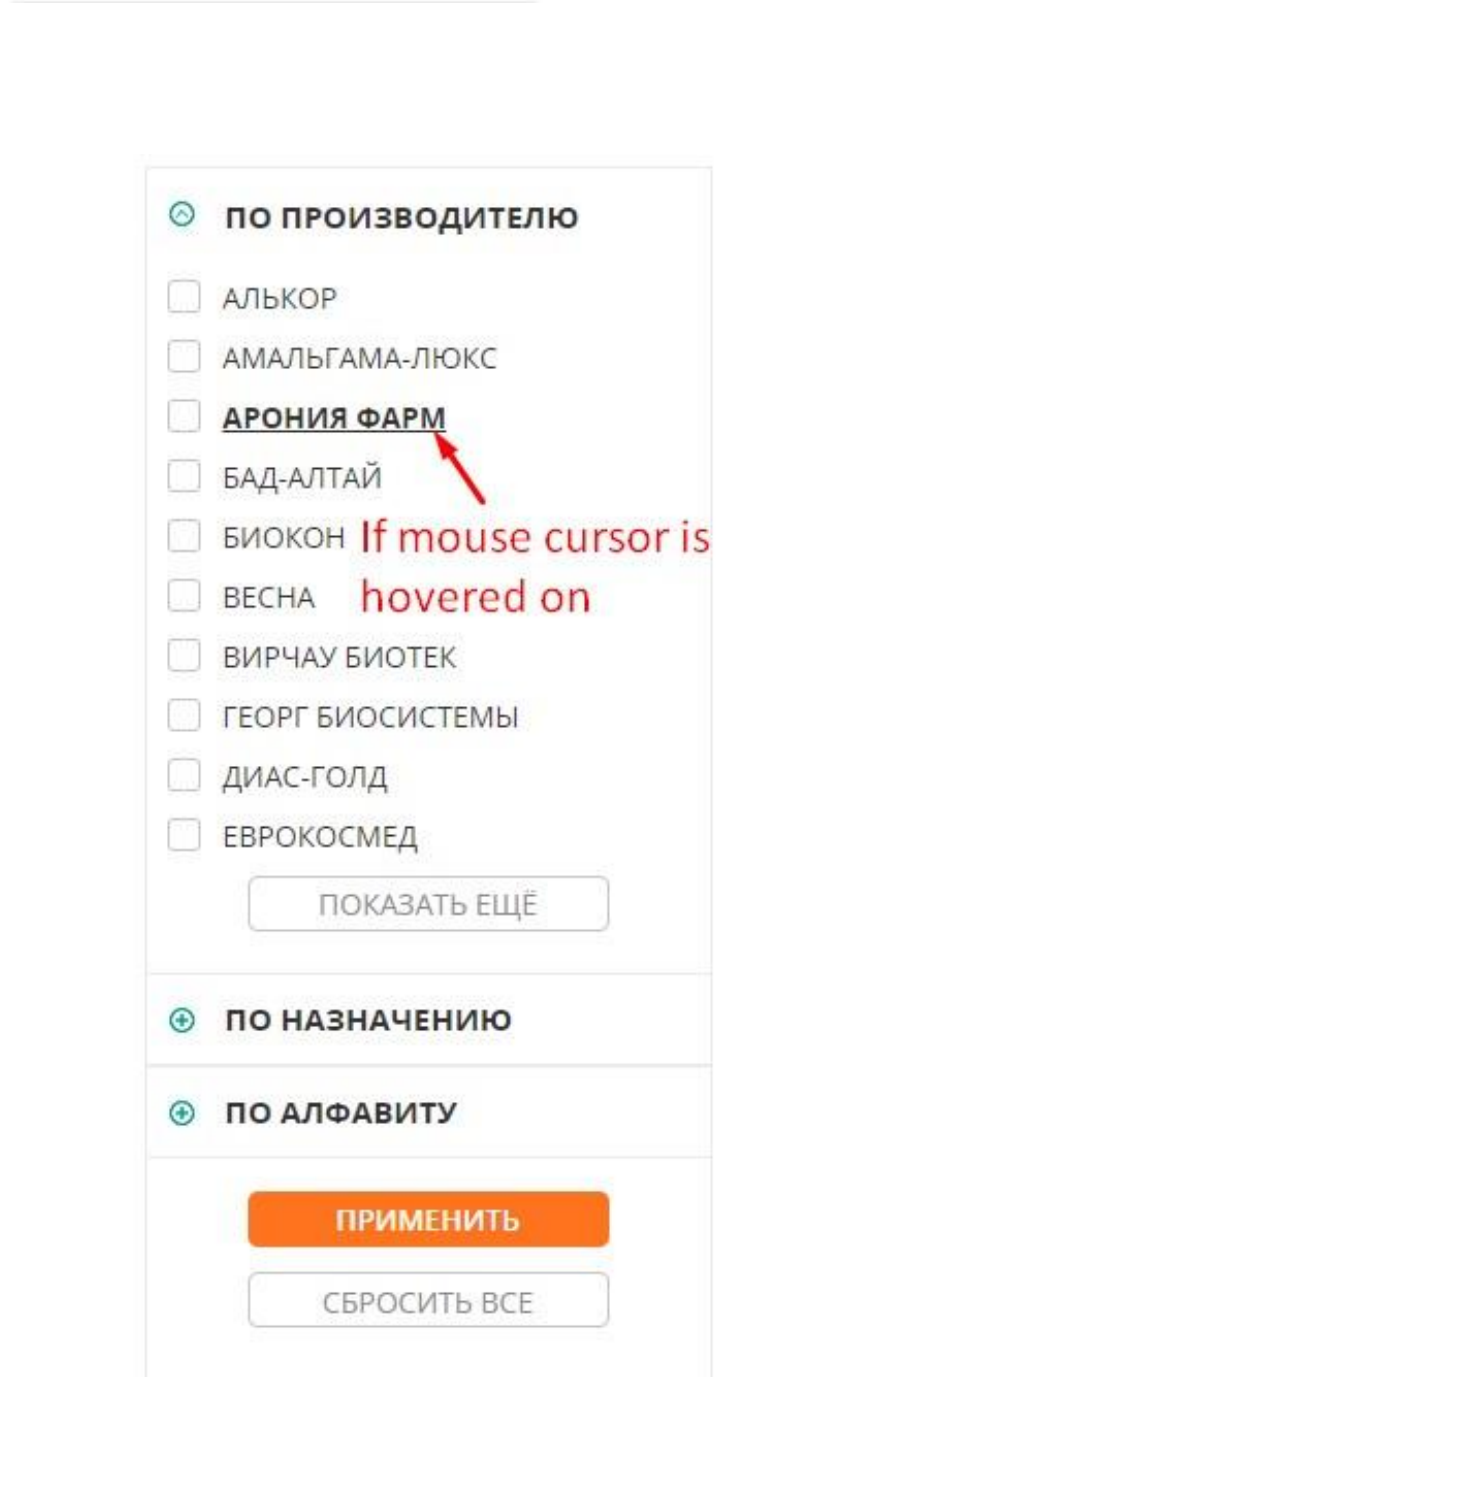

- it shows a preview of group in Facebook with a link to this group:
 - i. clicking on this link sends to the group in Facebook

16. Animated banner (Slider) is shown left to the Main section (Body) and under Facebook Widget:

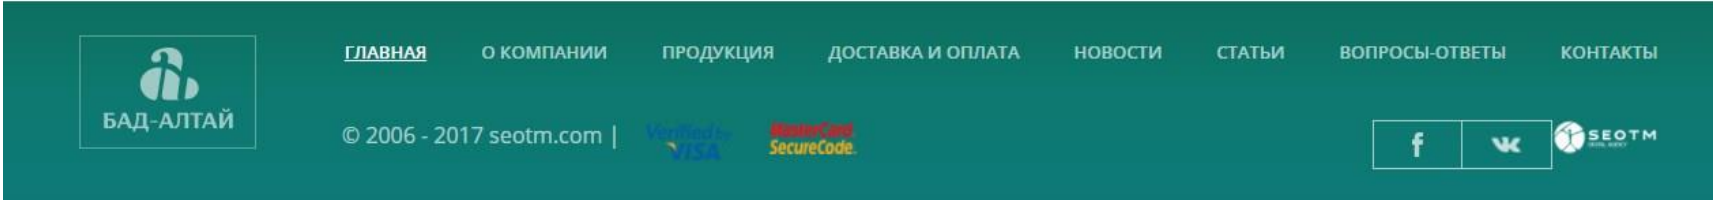

- banner changes image every 4 seconds
- banner has 4 items to show
- images are changing from 1st to the last and then continueing with the 1st
 - i. images are changing from left to right
- images are not clickable
- slick-slider dots are shown under images and changing along with images
 - i. active image dot is coloured to orange

	<ul style="list-style-type: none">- user can switch to another image in Slider by clicking on proper dot<ul style="list-style-type: none">i. related to chosen dot image should be shownj. the next after chosen image should be shown in 4 sec- Slider stops image change if user hover mouse cursor over it in any banner area and continue changing when cursor is moved away <p>17. All Content block content should be aligned by vertical border due to other page parts</p>
--	--

UC2.4 Footer

Footer is the same as for Homepage (statements under are duplicate Homepage requirement):

- 1. Another Logo is shown in the Footer:
 - clicking on it:
 - i. reload the page (if user is on Products page) and scroll up to the top;
 - ii. send to the Products page and scroll up to the top
- 2. Next to the Footer Logo is Footer Site Navigation Panel
- 3. Footer Site Navigation Panel has the next links:
 - "ГЛАВНАЯ";
 - "О КОМПАНИИ";
 - "ПРОДУКЦИЯ";
 - "ДОСТАВКА И ОПЛАТА";
 - "НОВОСТИ";
 - "СТАТЬИ"
 - "ВОПРОСЫ-ОТВЕТЫ";
 - "КОНТАКТЫ"
- 4. Every Footer Site Navigation Link sends to own page related to its title.
- E. g.: Link "НОВОСТИ" sends to the News Page, "О КОМПАНИИ" - About Page.
- 5. Footer Site Navigation Links are aligned in line:
E. g.: ГЛАВНАЯ О КОМПАНИИ ПРОДУКЦИЯ ДОСТАВКА И ОПЛАТА НОВОСТИ
СТАТЬИ ВОПРОСЫ-ОТВЕТЫ КОНТАКТЫ
- 6. Under Footer Site Navigation Links are situated:
 - copyright info;
 - logos of all supported payment systems:
 - i. Visa;
 - ii. MasterCard
 - social widgets:
 - i. facebook
 - ii. VK
 - logo of designing studio:
 - i. SEOTM Logo
- 7. Copyright link should send to the designing studio website:
 - www.seotm.com
- 8. Payment system logos should send to page with info about these systems and their integration to the current website payment engine
- 9. Social widgets should send to groups of current website in the defined social networks:
 - facebook - www.facebook.com/bad.altay/
 - VK - vk.com/bad.altay/
- 10. All Footer's content should be aligned by vertical border due to other page parts
